Also, the looms come with 1 pre-rolled and threaded 150-thread, 6-meter black cotton warp with a re-usable cardboard rolling tube.

**Ordering your Loom:** We place one or more multi-loom orders to Japan each year. As of 5-24-10, we still have a few SX60 looms & one Piccolo loom from our Spring order **in stock** to be sold at the above prices. A deposit of \$250 will reserve an in-stock loom for you – we must receive full payment in 30 days unless otherwise arranged. Deposits for looms **not in stock** will be taken for our **next** order - date to be announced (based on clearance of current inventory & number of new order deposits received). **Exception:** Piccolo looms (see below)

**NEW! SAORI PICCOLO:** Designed for weavers ages 4 to 104, this loom has a light-weight metal frame that is extendable, foldable, & highly portable. It has a shelf for scissors, bobbins, etc., a clamp to hold the folded loom closed, & an attached bobbin winder.

**Note:** Unlike the 60 Series looms, we can order one or more Piccolos for you at any time (higher shipping rates may apply to such special orders). Promotional price (guaranteed through 6-30-2010): **\$ 899**

Each new Piccolo loom includes: 1 two-harness set; 1 reed; 1 pre-rolled and threaded 150-thread, 6-meter black cotton warp with re-usable cardboard rolling tube, and 1 tying rod with a clip that makes tying the warp to the rod with knots unnecessary. No other accessories included: when ordering your Piccolo loom, we suggest you consult us regarding what accessories you will need to fit your plans.
